

Banks Response to COVID-19

As the COVID-19 continues to impact communities across the country and the economy in general, financial institutions in the United States are taking steps to respond to the needs of their customers. The response and actions vary from institution to institution and these include fee waivers, deferred payments for credit cards, loans and loan modifications, among others.

Responding to the needs of our community, Qualitas of Life Foundation has compiled a list of announcements issued by financial institutions where they address related information on the measures they are taking in response to COVID-19.
